wall**shoulders**™
the solution to your x-ray garment storage

CHALLENGES

- Protective aprons are damaged as a result of improper storage.
- Wall mounted storage systems that pull out of the wall after minimal use.
- Inadequate mounting footprint and mounting hardware.
- Hard to clean metal spot welds, chipping paint that exposes bare metal where bacteria can grow.
- Unattractive design limits mounting locations when a warm / comfortable / visual environment is desired.
- Flimsy hangers that are awkward to access and return the protective garment.

SOLUTION

- wall**shoulders**™ by DeBroeck Company; with our unique patent pending design and DuPont™ Corian® raw material, we are proud to bring you the next generation of x-ray garment storage solutions for the healthcare industry.

BENEFITS

- Our ws3130 provides an attractive and durable storage for your full front and back style panoramic x-ray apron.
- Our unique design provides a perfect fit for your *Technician* full aprons including the wrap around style.
- By adding our gs1126 your technician will have a convenient storage for their x-ray protective gloves. (see gs1126)
- The overall width of 19 inches makes finding an installation location a snap.
- The full top radius at just the right slant provides full contact support enhancing the longevity of your protective aprons.
- This new design is tailored to the Velcro fastened (adult or child) open right shoulder panoramic x-ray apron with slanted shoulders.
- wall**shoulders**™ are inviting to the touch as well as elegant: *The four colors available will accent any rooms design.*
- All garment contact points are set away from the mounting surface, this feature keeps the garment from rubbing the mounting surface while in storage.
- Every wall**shoulders**™ is manufactured using the highest quality DuPont™ Corian® raw material, the same material used in healthcare facilities around the world. DuPont™ Corian® is non porous and is resistant to bacteria and staining, it is ideal for use in a bacteria intense environment.

DuPont™ Corian® is... the perfect surface for healthcare
